

Heat Wrap

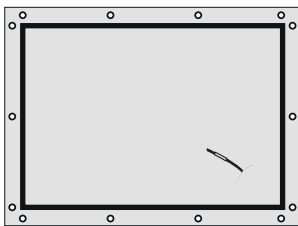

Heat Wrap is the physical solution against xylophages in all stages for any kind of wood:

A modular set of heating panels, adaptable as needed: beams, floors, walls, ceilings, furniture... regardless of the shape.

Datasheet

Number of heating panels	3 per set	
Heating panel Dimensions	90 x 60 cm	30,4 x 23,6 in
Heating panel Material	High strength thermal reflector and high strength PVC	
Total treatment area	2,47 m ²	27,66 ft ²
Panel treatment area	2,470,41 cm ²	4,41 ft ²
Compliance	CE / UL CSA	
Temperature range	85°C - 95°C	185°F - 203°F
Power supply	100-120V ~60Hz /	
Estimated average power	1500W	
Packing	Heavy duty corrugated cardboard	
Dimensions	66 x 47 x 43 cm	25,9 x 18,5 x 16,9 in
Net weight	14,1 Kg	31,08 Lbs
Total weight	15,3 Kg	33,7 Lbs
Cartons per EU pallet	12 boxes	
Origin country	Spain	
Taric Code	8419899800	

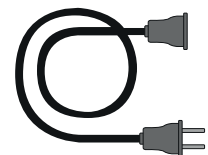

Accessories and components

3 heating panels
(including cords)

Easy Control device (3 channels)

Power cord

Heat Wrap is based in SAMITECH Infrared intelligent heating technology

The far infrared waves radiated by each panel penetrate the wood surface and directly attack the protein cells of the insects, causing their death by dehydration.

This physical process does not harm treated objects.

A light, flexible and durable nano-technological fabric, designed for industrial use that produce far infrared waves.
