

# Heat Wrap

Heat Wrap is the physical solution against xylophages in all stages for any kind of wood:  
A modular set of six heating panels, adaptable as needed: beams, floors, walls, ceilings, furniture... regardless of the shape.

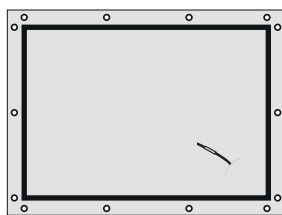

## Datasheet

Number of heating panels	6 per set	
Heating panel Dimensions	90 x 60 cm	30,4 x 23,6 in
Heating panel Material	SAMITECH heating fabric forced by PVC and fiberglass	
Total treatment area	2,47 m <sup>2</sup>	27,66 ft <sup>2</sup>
Panel treatment area	2,470,41 cm <sup>2</sup>	4,41 ft <sup>2</sup>
Compliance	CE / UL / CSA	
Temperature range	55°C - 120°C	131°F - 248°F
Power supply	200-250V ~50Hz /	
Estimated average power	3000W	
Packing	Heavy duty corrugated cardboard	
Dimensions	66 x 47 x 43 cm	25,9 x 18,5 x 16,9 in
Net weight	14,1 Kg	31,08 Lbs
Total weight	15,3 Kg	33,7 Lbs
Cartons per EU pallet	12 boxes	
Origin country	Spain	
Taric Code	8419899800	

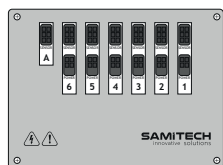

**Heat Wrap Smart Control Pack content:**

- Heating panels x6
- Control Box Unit
- Tablet with user interface
- Inlet power cord
- Data cables (x6)
- Power cables (x6)
- Temperature probes

## Accessories and components

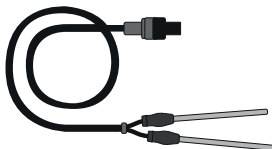

6 heating panels

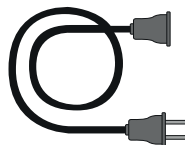

Control box unit

7" Tablet with user interface

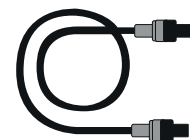

Temperature probes

Power cord

6 Power cable

6 Data cable

*Heat Wrap is based in SAMITECH Infrared intelligent heating technology*

The far infrared waves radiated by each panel penetrate the wood surface and directly attack the protein cells of the insects, causing their death by dehydration.

This physical process does not harm treated objects.

A light, flexible and durable nano-technological fabric, designed for industrial use that produce far infrared waves.
