

SAMITECH Heat Wrap

Samitech Heat Wrap is a physical heat solution against xylophages.

Modular set consisting of 6 heating panels adaptable to any surface.

Heat Wrap uses Samitech's exclusive infrared heating technology.

Data sheet

Number of heating panels	6 panels per set	
Heating panel dimensions	885 x 605 mm	34,84 x 23,81 in
Heating panel material	Samitech Heating Textile covered by polyester insulation film	
Total area	3,21 m ²	34,55 ft ²
Heating area per panel	0,35 m ²	3,77 ft ²
Compliance	CE, UL, CB, CSA	
Temperature range	55-100°C	131-212°F
Input	200-250V ~50-60Hz	
Power	2.500W (max 3.600W)	
Packaging	Corrugated cardboard	
Dimensions	68 x 23 x 52 cm	27 x 9 x 20,5 in
Net weight	9,6 Kg	21,16 lbs
Total weight	10,8 Kg	23,81 lbs
Cartons per EU pallet	18 boxes	
Country of origin	Spain	
HS code	8419899800	

Set contents

- 6 x Heating panels
- 6 x Connection cables
- 2 x Temperature probes
- 1 x Control unit
- 1 x Power cable
- 1 x Carrying case
- 1 x Online documentation

Technology

Samitech Heat Wrap uses infrared radiation technology developed in Spain by Samitech.

Infrared waves emitted by heating panels penetrate wood and heat up protein molecules of insects causing their death by dehydration.

Heat Wrap can be used against any kind of xylophages in any lifecycle. This physical treatment does not harm treated objects if used according to instructions.
